**Applications**

Extending the chimney if the ventilation module has to be placed lower.

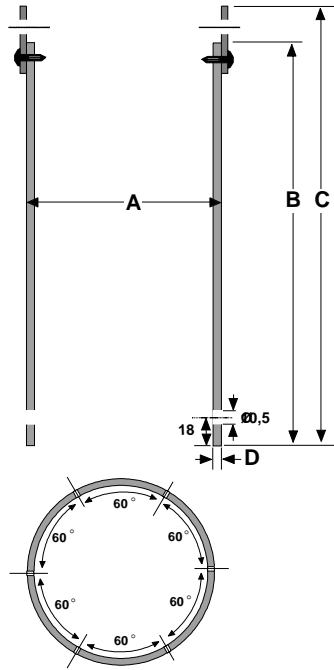

Features

- The extension duct has a plug and socket connection as standard. The extension duct is available in two lengths: 1.0m / 3.3ft and 0,5m / 1.6ft.
- The chimneys can be joined using push pull rivets for quick mounting to the chimney.
- The CLICK extension duct is a flat sheet with a click connection system which can be easily assembled on location.
- The demountable sleeve used to connect CLICK ducts together is supplied separately, and is secured to the duct by 6 press-in plugs.
- Colour: grey
